

Mohamed Ramy

FRONT-END DEVELOPER (REACT JS)

Alexandria, EG | 01021423745 | mohamed.mohamed.2005000@gmail.com

Objective

As a junior front-end developer with a focus on React.js and a solid foundation in computer science from Egypt-Japan University for Science and Technology, I am passionate about creating engaging and responsive user interfaces. I am eager to apply my front-end development skills to contribute to innovative web projects, while continually enhancing my technical expertise in a dynamic and growth-oriented environment.

Projects

WorldWise - React JS

Developed a web application that assists users in selecting cities for their upcoming journeys.

- **Key features:** Interactive cities selection with map, performance optimization.
- **Technologies Used:** HTML, CSS modules, React JS.
- **Topics:** Advanced state management, context, custom hooks, react-router.

GitHub repo:

Quiz app – React JS

Quiz app to test your information in react basics and gives you your score and percentage.

- **Key features:** Interactive quiz app with user using fake API.
- **Technologies Used:** HTML, CSS, React JS.
- **Topics:** Advanced state management, prop drilling.
